Experience

Design Intern

DailyDumbbell, Remote

Jul 2022 - Nov 2022

- **Visual Identity Crafting:** Pioneered the development of a captivating brand identity for DailyDumbbell, channeling design elements to embody the brand's essence. Established an aesthetic resonance that deeply connected with users, reflecting the brand's core values.
- **Intuitive UI/UX Design:** Drove the advancement of user interfaces across the website and app, infusing seamless user experiences. Translated user-centric design principles into visually immersive solutions, enriching usability and engagement for end-users.

Skills

- **Languages:** Java, JavaScript, TypeScript, HTML, CSS
- **Framework:** Tailwind CSS, Framer Motion, React.js, Next.js, Node.js, Express.js
- **Version Control & Deployment tools:** Git, Vercel & Docker
- **Database:** Mongo DB
- **UI/UX Design:** Figma, Principles of User-Centered Design
- **Soft Skills:** Rapid Skill Acquisition, Continuous Improvement, Creative Solutions

Projects

- **Potion** - Crafted with React.js and CSS Modules, this project boasts a sleek UI design for seamless task management. Users effortlessly add, edit, and remove links/notes/todos, enjoying an immersive task-handling experience that keeps them in control effortlessly. [live site](#) & [github](#)
- **Auction Table** - Designed and implemented an immersive online auction platform using Next.js, MongoDB, and Tailwind CSS. Enabled users to effortlessly list products, engage in competitive bidding, and experience the thrill of time-limited auctions. The project showcased my proficiency in full-stack development, UI/UX design, and database management. [live site](#) [github](#)
- **Dooze Redesign** - Designed using HTML, Tailwind CSS, and honed UI/UX skills, this project entails a complete overhaul of an app marketing landing page. The design is meticulously optimized to let know about the app. Notably, enhancements were made to establish a stronger brand-user connection. Explore the detailed UI/UX case study through this link.
